EMOTION MEDIA ENCODER TEMPLATE

The included template was built using Adobe™ Media Encoder CC2015. It is intended to help you apply all the correct settings to ensure the proper encoding of media content to be used with the **Elation EMOTION™** fixture. Please use the "Import Preset" option in the "Preset Browser Pane" and apply it to your encoding tasks. (See below)

Should you have any questions please contact our customer service team.
