RDMX6S™

SKU# **RDM620**

The RDMX6S™ is an easy-to-use RDM E1.20 compliant

6-way RDM/DMX data splitter featuring a 5pin DMX

input, a 5pin DMX loop thru output with built-in

termination, and (6) opto-isolated 5pin DMX outputs.

Housed in a die-cast aluminum housing, it features a

multi-voltage universal auto switching power supply

(100-240v), and includes a single unit mounting bracket

for truss/clamp installation. Optional single and dual unit

rack mount kits are available.
