# GENERAL INFORMATION

## INTRODUCTION

Please read and understand the instructions in this manual carefully and thoroughly before attempting to operate this device. These instructions contain important safety and use information. **This device is intended for professional use only.**

## UNPACKING

Every device has been thoroughly tested and has been shipped in perfect operating condition. Carefully check the shipping carton for damage that may have occurred during shipping. If the carton is damaged, carefully inspect the device for damage, and be sure all accessories necessary to install and operate the device have arrived intact. In the event damage has been found or parts are missing, please contact our customer support team for further instructions. Please do not return this device to your dealer without first contacting customer support. Please do not discard the shipping carton in the trash. Please recycle whenever possible.

## BOX CONTENTS

2x Omega Brackets  
1x Lens  
1x Adjustable Glare Shield  
IP65 Locking Power Cable

## CUSTOMER SUPPORT

Contact ELATION Service for any product related service and support needs. Also visit [forums.elationlighting.com](https://forums.elationlighting.com) with questions, comments or suggestions.

**ELATION SERVICE USA - Monday - Friday 8:00am to 4:30pm PST**  
**323-582-3322** | [support@elationlighting.com](mailto:support@elationlighting.com)

**ELATION SERVICE EUROPE - Monday - Friday 08:30 to 17:00 CET**  
**+31 45 546 85 63** | [support@elationlighting.eu](mailto:support@elationlighting.eu)

**REPLACEMENT PARTS** please visit [parts.elationlighting.com](https://parts.elationlighting.com)

## LIMITED WARRANTY

For up-to-date warranty information regarding your device, please visit Elation's warranty information page online or scan the QR codes below.

**USA:** <https://www.elationlighting.com/warranty-information>

**EU:** [https://www.elationlighting.eu/terms\\_and\\_conditions](https://www.elationlighting.eu/terms_and_conditions)

**THERE ARE NO USER SERVICEABLE PARTS INSIDE THIS UNIT. DO NOT ATTEMPT ANY REPAIRS YOURSELF, AS DOING SO WILL VOID YOUR MANUFACTURER'S WARRANTY. DAMAGES RESULTING FROM MODIFICATIONS TO THIS FIXTURE AND/OR THE DISREGARD OF SAFETY INSTRUCTIONS AND GUIDELINES IN THIS MANUAL VOID THE MANUFACTURER'S WARRANTY AND ARE NOT SUBJECT TO ANY WARRANTY CLAIMS AND/OR REPAIRS.**

# SAFETY GUIDELINES

This fixture is a sophisticated piece of electronic equipment. To guarantee smooth operation, it is important to follow all instructions and guidelines in this manual. Elation Professional is not responsible for injury and/or damages resulting from the misuse of this fixture due to the disregard of the information printed in this manual. Only qualified and/or certified personnel should perform installation of this fixture and only the original rigging parts included with this fixture should be used for installation. Any modifications to the fixture and/or the included mounting hardware will void the original manufacturer's warranty and increase the risk of damage and/or personal injury.

**PROTECTION CLASS 1 - FIXTURE MUST BE PROPERLY GROUNDED.**

**THERE ARE NO USER SERVICEABLE PARTS INSIDE THIS UNIT. DO NOT ATTEMPT ANY REPAIRS YOURSELF, AS DOING SO WILL VOID YOUR MANUFACTURER'S WARRANTY. DAMAGES RESULTING FROM MODIFICATIONS TO THIS DEVICE AND/OR THE DISREGARD OF SAFETY INSTRUCTIONS AND GUIDELINES IN THIS MANUAL VOID THE MANUFACTURER'S WARRANTY AND ARE NOT SUBJECT TO ANY WARRANTY CLAIMS AND/OR REPAIRS.**

**DO NOT PLUG THIS UNIT INTO A DIMMER PACK!  
NEVER OPERATE THIS UNIT WITH THE CASING REMOVED!  
DISCONNECT POWER BEFORE PERFORMING MAINTENANCE!  
NEVER TOUCH DURING OPERATION, AS FIXTURE SURFACES MAY BE HOT!  
KEEP FLAMMABLE MATERIALS AWAY FROM FIXTURE!**

**SENSITIVE PERSONS MAY SUFFER AN EPILEPTIC SHOCK!**

**FOR USE IN INDOOR OR DRY LOCATIONS ONLY!  
DO NOT EXPOSE TO RAIN AND/OR MOISTURE!**

**THIS FIXTURE IS IP20 RATED, AND HAS BEEN DESIGNED AND TESTED TO PROTECT AGAINST THE INGRESS OF SOLIDS AS SMALL AS THE SIZE OF AN ADULT FINGER (APPROXIMATELY 12.5MM), BUT IS NOT PROTECTED AGAINST LIQUID INTRUSION OF ANY KIND.**

# SAFETY GUIDELINES

**DO NOT TOUCH** the fixture housing during operation.

**DO NOT** shake fixture, and avoid brute force when installing and/or operating fixture.

**DO NOT** operate fixture if the power cord is frayed, crimped, damaged and/or if any of the power cord connectors are damaged or do not fit into the fixture securely with ease.

**NEVER** force a power cord connector into the fixture. If the power cord or any of its connectors are damaged, replace it immediately with a new one of the same power rating.

**TURN OFF** the power and allow approximately 15 minutes for the fixture to cool down before servicing.

**ALWAYS** disconnect fixture from power before performing any service and/or cleaning procedure.

**ONLY** handle power cord by the plug end. Never pull plug out by tugging the wire portion of the cord.

During the initial operation of this fixture, a light smoke or smell may emit from the interior of the fixture. This is a normal process and is caused by excess paint in the interior of the casing burning off from the heat associated with the LED and will decrease gradually over time.

Consistent operational breaks will ensure fixture will function properly for many years.

**ONLY** use the original packaging and materials to transport the fixture for service.

# OVERVIEW

# OVERVIEW

The corollary alignment features of the fixture, magnets, projections, and cavities, are designed to interlock when placed adjacent to each other with the same orientation. The front of the fixture can be raised or lowered to match these interlocking features, or to adjust the projection height of the fixture.

To adjust the fixture's height, follow these steps:

1. Lift the fixture slightly off the surface.
2. Locate the push-button positioned above the front foot.
3. Depress the push-button. This action will cause the foot to lower.
4. Once the foot reaches the desired height, release the button. The foot will lock in place at the selected height.

With the heights of adjacent fixtures adjusted to a matching height, orient the alignment features and move them together to allow their magnets to connect them and maintain their relative positions.

# INSTALLATION GUIDELINES

## **FLAMMABLE MATERIAL WARNING**

Keep fixture minimum 5.0 feet (1.5m) away from flammable materials and/or pyrotechnics.

## **ELECTRICAL CONNECTIONS**

A qualified electrician should be used for all electrical connections and/or installations.

**INDOOR USE ONLY! THIS DEVICE IS NOT INTENDED FOR OUTDOOR USAGE, OR EXPOSURE TO RAIN OR MOISTURE! USE OF THIS DEVICE OUTDOORS VOIDS YOUR MANUFACTURER'S WARRANTY!**

**DO NOT PERFORM THE INSTALLATION YOURSELF IF YOU ARE NOT QUALIFIED TO DO SO!**

Fixture **MUST** be installed following all local, national, and country commercial electrical and construction codes and regulations.

Before rigging/mounting a single fixture or multiple fixtures to any metal truss/structure or placing the fixture(s) on any surface, a professional equipment installer **MUST** be consulted to determine if the metal truss/structure or surface is properly certified to safely hold the combined weight of the fixture(s), clamps, cables, and accessories.

Maximum fixture ambient operating temperature is **113°F (45°C)**. Do not operate this fixture when ambient temperature exceeds this rating.

Overhead rigging requires extensive experience, including calculating working load limits, knowledge of installation material being used, and periodic safety inspection of all installation material and the fixture. If you lack these qualifications, do not attempt the installation yourself. Improper installation can result in bodily injury.

Fixture(s) should be installed in areas outside walking paths, seating areas, or areas where unauthorized personnel might reach the fixture by hand.

**NEVER** stand directly below the fixture(s) when rigging, removing, or servicing.

Overhead fixture installation must always be secured with a secondary safety attachment, such as an appropriately rated safety cable.

# INSTALLATION GUIDELINES

## RIGGING

Overhead rigging requires extensive experience, including calculating working load limits, knowledge of installation material being used, and periodic safety inspection of all installation material and the fixture, among other things. If you lack these qualifications, do not attempt the installation yourself. Improper installation can result in bodily injury.

## OMEGA BRACKETS WITH CLAMP INSTALLATION

Insert the Omega Brackets into the matching holes on the bottom of the fixture. Note that Omega Brackets are slotted to allow positional adjustment. Secure the Omega Brackets to the fixture by turning each quick-lock fastener  $\frac{1}{4}$  turn clockwise; making sure the fastener is completely locked. Omega Brackets can be installed into the fixture base as illustrated below.

# INSTALLATION GUIDELINES

## MOUNTING THE FIXTURE ON A TRUSS USING CLAMPS WITH OMEGA BRACKET

When mounting the fixture to a truss, be sure to secure an appropriately rated professional grade rigging clamp to the included **Omega Brackets** using an M10 screw fitted through the center hole of the **Omega Brackets**. The fixture provides a built-in rigging point for a **SAFETY CABLE** (not included). Be sure to only use one of the designated rigging points for the safety cable and never secure a safety cable to a carrying handle.

# INSTALLATION GUIDELINES

Please note that the designated safety cable rigging point is the only safe location to attach a safety cable! Never attach a safety cable to the mounting clamp bracket!

# INSTALLATION GUIDELINES

## RIGGING

Overhead rigging requires extensive experience, including among others calculating working load limits, installation material being used, and periodic safety inspection of all installation material and the fixture. If you lack these qualifications, do not attempt the installation yourself. Improper installation can result in bodily injury.

The Elation KL CYC L can be truss mounted in all positions.

**FALLING FIXTURES CAN CAUSE SEVERE INJURY OR SERIOUS EQUIPMENT DAMAGE! FOR THIS REASON, FIXTURES SHOULD BE INSTALLED AND INSPECTED ONLY BY QUALIFIED PERSONNEL. DO NOT INSTALL THE UNIT IF YOU LACK THE QUALIFICATIONS TO DO SO, OR IF YOU HAVE DOUBTS ABOUT THE SAFETY AND SECURITY OF THE INSTALLATION SETUP OR LOCATION!**

**ALWAYS ATTACH A SAFETY CABLE WHENEVER INSTALLING THIS FIXTURE IN A SUSPENDED ENVIRONMENT TO ENSURE THE FIXTURE WILL NOT FALL IF THE CLAMP FAILS.**

# ACCESSORY INSTALLATION: LENS

## ACCESSORY OPERATION: ADJUSTABLE GLARE SHIELD

# REMOTE DEVICE MANAGEMENT (RDM)

**NOTE: In order for RDM to work properly, RDM enabled equipment must be used throughout the entire system, including DMX data splitters and wireless systems.**

Remote Device Management (RDM) is a protocol that sits on top of the DMX512 data standard for lighting, allowing the DMX systems of the device to be managed, modified, and monitored remotely (hence, remote device management). This protocol is ideal for fixtures installed in locations that are not easily accessible.

With RDM, the DMX512 system becomes bi-directional, allowing a compatible RDM enabled controller to send out a signal to devices on the wire, as well as allowing the fixture to respond (known as a GET command). The controller can then use it's SET command to modify settings that would typically have to be changed or viewed directly via the unit's display screen, including the DMX Address, DMX Channel Mode, and Temperature Sensors.

## FIXTURE RDM INFORMATION:

RDM Code	Device ID	Device Model ID	Personality ID
0x22A6	0000-FFFF	0X004C	1CH Dimmer 4CH RGB 4CH CCT 4CH HSI 12CH HSI Extended 11CH CMY 16CH CMY Extended <b>13CH Standard</b> 20CH Extended 19CH Standard 2 Zone 32CH Extended 2 Zone 31CH Standard 4 Zone 56CH Extended 4 Zone

**Please be aware that not all RDM devices support all RDM features**, and therefore it is important to check beforehand to ensure that the equipment that you are considering includes all of the features that you require.

The following parameters are accessible in RDM on this device:

[0x0011] Proxied Device Count	[0x0405] Device Power Cycles
[0x0200] Sensor Definition	[0x0500] Display Invert
[0x0201] Sensor Value	[0x0603] Realtime Clock

[0x00E1] DMX Personality Description	[0x00C1] Boot Software Version ID
[0x0400] Device Hours	[0x0070] Product Detail ID List
[0x0015] Comms Status	[0x0030] Status Messages
[0x0031] Status ID Description	[0x0000] Undefined PID [0x1100, (4352)]
[0x0032] Clear Status ID	

# SYSTEM MENU

The fixture includes an easy to navigate system menu. The control panel display located on the top of the fixture provides access to the main system menu where all necessary system adjustments are made to the fixture.

- During normal operation, pressing the MODE button once will access the fixture's main menu.
- Once in the main menu you can navigate through the different functions and access the sub-menus with the DOWN and UP buttons.
- Once you reach a field that requires adjusting, press the ENTER button to activate that field and use the DOWN and UP buttons to adjust the field.
- Pressing the ENTER button once more will confirm the setting.
- Exit the main menu at any time without making any adjustments by pressing the MODE button.

**NOTE:** To access the LCD Menu Control Display via the internal battery, press and hold the **MODE/ESC** button for 10 seconds. The LCD Menu Control Display will shut **OFF** automatically about 1 minute from the last button press.

**NOTE:** The unit comes with a battery so that the menu options can be changed or setup without the need to plug the unit into power.

**AN ELATION C-LOADER II CAN ALSO BE USED TO UPDATE THE FIXTURE TO THE LATEST SOFTWARE. To order this device, please contact Elation Support for further details.**

**ELATION SERVICE USA - Monday - Friday 8:00am to 4:30pm PST

# CYCLORAMA EDGELIGHT FEATURE

With the understanding and intention that the KL CYC FC can excel in a footlight or foot ramp application, we aimed to integrate additional functions to enhance the fixture's capabilities and offer a distinctive safety feature. As a result, we developed what we term 'EdgeLight.'

The EdgeLight feature allows either the Red or Blue LEDs to emit a dim glow when the main output of the fixture is turned off or set to '0%.' This provides an indication of the stage or performance area's edge. The behavior of this function, along with the color and intensity of the LEDs, can be fully controlled by the user in multiple ways, ensuring that the effect doesn't detract from the performance or event, from the audience's perspective.

By default, the intensity of EdgeLight is governed by the DMX signal. To utilize EdgeLight, the fixture must be configured to a DMX mode that incorporates the 'EdgeLight Level' control channel. When using DMX control, users can activate or deactivate the effect and adjust the intensity level to suit their needs or preferences. The initial Blue color can also be changed to Red using the fixture's DMX control channel.

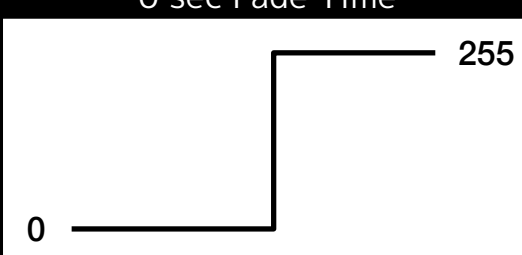

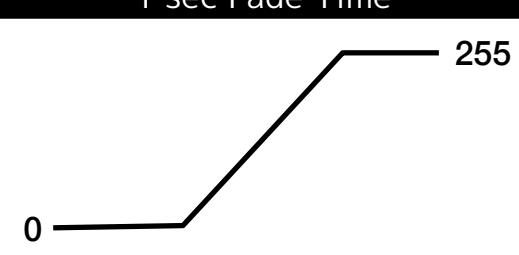

When the 'Control' setting is switched to 'Always On' through the fixture's menu or DMX control channel, the EdgeLight feature will automatically fade in whenever the main output of the fixture is set to '0%.' In this mode, the EdgeLight's color and intensity will be retrieved from the 'Default Intensity' and 'Color' settings in the menu. These settings cannot be altered by the 'EdgeLight Level' channel, provided it's present in the selected DMX mode. If desired, the default or recalled 'Color' of the effect can still be modified in the fixture's DMX control channel. Once the main output of the fixture rises above '0%', the effect will deactivate.

Changing the 'Control' setting to 'Disabled' renders the feature inaccessible.

Moreover, the EdgeLight function can be chosen to be reinstated in case the fixture loses the DMX signal. If the 'EdgeLight' option is selected within the 'No DMX Status' menu section, the fixture will recall the default EdgeLight menu settings after 3 seconds without a DMX signal. This mode will persist until a DMX signal is detected, at which point the EdgeLight will fade out and restore the current state set by DMX.

Error Codes subject to change without notice	
ERROR CODES	DESCRIPTION
Temp Error	This message appears when there is a heating error.
Init Error	This message appears when there is an initial startup error.

# PIXEL GROUPING

# MAINTENANCE GUIDELINES

## **DISCONNECT POWER BEFORE PERFORMING ANY MAINTENANCE!**

### **CLEANING**

Frequent cleaning is recommended to ensure proper function, optimized light output, and an extended life. The frequency of cleaning depends on the environment in which the fixture operates: damp, smoky, or particularly dirty environments can cause greater accumulation of dirt on the fixture's optics. Clean periodically with a soft cloth to avoid dirt/debris accumulation.

**NEVER** use alcohol, solvents, or ammonia-based cleaners.

### **MAINTENANCE**

Regular inspections are recommended to ensure proper function and extended life. There are no user serviceable parts inside this fixture. Please refer all service issues to an authorized Elation service technician. Should you need any spare parts, please order genuine parts from an authorized Elation dealer.

Please refer to the following points during routine inspections:

- A detailed electrical check by an approved electrical engineer every three months, to make sure the circuit contacts are in good condition and prevent overheating.
- Be sure all screws and fasteners are securely tightened at all times. Loose screws may fall out during normal operation, resulting in damage or injury as larger parts could fall.
- Check for any deformations on the housing, color lenses, rigging hardware, and rigging points (ceiling, suspension, trussing). Deformations in the housing could allow for dust to enter into the fixture. Damaged rigging points or unsecured rigging could cause the fixture to fall and seriously injure a person(s).
- Electric power supply cables must not show any damage, material fatigue, or sediments.

**NEVER** remove the ground prong from the power cable.

# SPECIFICATIONS

## SOURCE

180W RGBMA LED Array

30,000 Hour Average LED Life\*

\*May vary depending on several factors including but not limited to: Environmental Conditions, Power/Voltage, Usage Patterns (On-Off Cycling), Control and Dimming.

## PHOTOMETRIC DATA

Total Lumen Output

9,249 (Integrating Sphere)

8,606 (Goniometer)

CRI 96.5

TLCI 88

## Filter

Beam Angle: 40° x 90°

Field Angle: 85° x 160°

## No Filter

Beam Angle: 25° x 75°

Field Angle: 80° x 125°

## EFFECTS

EdgeLight Safety Feature

Electronic Dimmer and Strobe

Variable 16-bit Dimming Modes and Curves

## COLOR

RGBMA Color Array

Up to Four Control Segments

CMY, RGB Emulation

Variable CCT 2,400K - 8,500K

Green/Magenta Shift

Virtual Gel Swatch Book

## CONTROL / CONNECTIONS

11 DMX Channel Modes (1ch, 4ch, 4ch, 4ch, 11ch, 12ch, 13ch, 16ch, 19ch, 20ch, 31ch, 32ch, 56ch)

4 Button Control Panel, LED Display

RDM (Remote Device Management)

5pin DMX In/Out

RJ45 Locking Ethernet In/Out

IP65 Locking Power Cable In/Out

## SIZE / WEIGHT

Length: 37.9" (962mm)

Width: 8.1" (206.3mm)

Height: 3.4" (85.2mm)

Weight: 16lb (7.3kg)

## ELECTRICAL / THERMAL

AC 100-240V - 50/60Hz

196W Max Power Consumption

Power Thru Capacity: 12A (6 units @ 110V;

14 units @ 240V)

5°F to 113°F (-15°C to 45°C)

BTU/hr (+/- 10%): 668.36

## INCLUDED ITEMS

2x Omega Bracket

1x Frost Filter

1x Barndoor

IP65 Locking Power Cable

## APPROVALS / RATINGS

CE | cETLus | FCC | UKCA

### FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### FCC RADIO FREQUENCY INTERFERENCE WARNINGS & INSTRUCTIONS

This product has been tested and found to comply with the limits as per Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device uses and can radiate radio frequency energy and, if not installed and used in accordance with the included instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following methods:

- Reorient or relocate the device.
- Increase the separation between the device and the receiver.
- Connect the device to an electrical outlet on a circuit different from which the radio receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### Energy Saving Matters (EuP 2009/125/EC)

Saving electric energy is a key to help protecting the environment. Please turn off all electrical products when they are not in use. To avoid power consumption in idle mode, disconnect all electrical equipment from power when not in use. Thank you!
