KEY FEATURES

400W RGBMA LED Engine

15,588 Total Fixture Lumen Output (Sphere)

Accepts 3rd Party Ellipsoidal Shutter Barrels

Stand-Alone Control with Touch Encoder and OLED Display

Direct Connection & Control for optional IP65 Gobo Rotator

NFC & Aria x2 Wireless Device Management

IP65 Rated

The **KL CORE IP** LED engine offers nearly endless functionality in a rugged and adaptable design. Central to the performance of the device is its high-output, 400W Full-Spectrum LED that is capable of delivering over 15,000 lumens of output.

The **KL CORE IP's** fully homogenized light source makes it incredibly adaptable. For ellipsoidal applications, the fixture can be paired with an optional **KL CORE IP** Shutter Barrel and used with any of the IP67-sealed lens tubes, functioning as a traditional LED ellipsoidal. The design is also compatible with most 3rd party shutter barrel assemblies, allowing seamless integration with existing setups. Further expanding its flexibility, the optional **KL CORE IP** Fresnel Lens transforms the fixture into a zoomable Fresnel, while the optional **KL CORE IP** Bowens Mount allows it to function as a monolight or lamp head for use with softboxes, lanterns, open-face reflectors, or other beam modifiers, making it ideal for TV/film and broadcast applications.

The **KL CORE IP** offers outstanding color rendering with a high CRI of 94.9 and TLCI of 95, fully variable 16bit CCT control, and remotely adjustable LED refresh frequency. The integrated touch bar encoder allows the device to be easily controlled in stand-alone applications, and the Aria x2 wireless device management integration also offers additional control options. Configuration is made simple with the use of onboard NFC.

While the IP65-rating of the **KL CORE IP** keeps it safe in the harshest outdoor environments, it also ensures the device will work well for any indoor application too- helping to keep the fixture cleaner and dust free over long periods of time.

With its exceptional light quality, robust design, and unmatched flexibility, the **KL CORE IP** is the ultimate fixture for professionals who need a high-performance solution that adapts to a wide range of lighting requirements.
